MR&S News Index—1966

This is an Index to the news columns of MR&S for Volume 6, 1966. An index to the technical papers appears on p. 654.

Number	Month of Issue	Pages
1	January	1– 62
2	February	63–128
3	March	129–168
4	April	169–218
5	May	219–280
6	June	281–324
7	July	325–378
8	August	379–422
9	September	423–492
10	October	493–544
11	November	545–592
12	December	593–654

A

ACI standards 1965 (book review), 541
Acoustics in architectural design (book review of), 276
Advances in cryogenic engineering, Volume 11 (book review), 541
Ailor, W. H. (book review): Corrosion and protection of metals, 419
Allen, W. H.: Dictionary of technical terms for aerospace use (NASA SP-7) (book review of), 375
American Concrete Institute: ACI standards 1965 (book review of), 541
American Institute of Mining and Metallurgical Engineers: New types of metal powders (book review of), 127
American Society for Metals: Diffusion in body-centered cubic metals (book review of), 127; Fiber composite materials (book review of), 218
Analysis, official methods of (book review of), 277
Anderson, W. K. (book review): Diffusion in body-centered cubic metals, 127
Architectural design, acoustics in (book review of), 276
Asphalts, bituminous materials: asphalts, tars, and pitches (book review), 643
Association of Official Analytical Chemists: Official methods of analysis (book review of), 277
ASTM-ASME joint committee, 406
ASTM Board of directors, highlights of September 1965 Meeting, 48; January 1966 meeting, 156; May 1966 Meeting, 523; September 1966 meeting, 630
ASTM district officers elected, 536
ASTM districts, Central New York–St. Lawrence, 122, 367, 638; Chicago, 369; Hawaii, 369; Middle Atlantic, 123, 320; New England, 123, 418; New York, 60, 216, 368, 418; Northern California, 321; Northern Plains, 320; North Texas, 122; Northwest, 61; Philadelphia, 60, 216, 418; Pittsburgh, 122, 369, 638; Western New York–Ontario, 321
ASTM grants, honors, and awards, ASTM grant awarded to Wayne State, 364; awards of merit, 461; Elliott, O. M., gets Max Hecht award, 117; grants-in-aid announced, 482; Harris, M., receives Dewitt Smith Medal, 528; honorary memberships, 454; honors and awards presented at Annual Meeting, 456; Joy, W. H., receives D-12 award, 54; Painter, R. J., fellowship established, 52; Reinhart, F. W., gets 1966 ASTM Adhesives Award, 315; Rossi, C. E., receives ASTM doctoral fellowship, 484
ASTM materials testing exhibit, 264, 312
ASTM national meetings, 69th annual meeting, 158, 207, 254, 450; Committee week, 204; national water quality criteria meeting, 271, 356, 576; Seattle meeting report, 36
ASTM national officers nominated, 267; elected, 404
ASTM Photographic Exhibit, award winners, 519
ASTM standards, consensus, 93
ASTM staff, Cummings, L. J., retires, 53; promotions announced, 309; Simard, R. G., appointed head of diffraction data section, 480; Wheeler, J. B., dinner marks 25 years with staff, 266
ASTM technical committees, absorption spectroscopy, 527; adhesives, 636; analysis and testing of industrial chemicals, 479; cellulose and cellulose derivatives, 636; asbestos-cement products, 276; bituminous and other organic materials for roofing, waterproofing, and related building or industrial uses, 217; carbon paper, inked ribbon, and other similar image producing products, 479; casein and similar protein materials, 532; cement, 120, 478; chemical analysis of metals, 477; chemical-resistant nonmetallic materials, 276; concrete and concrete aggregates, 120, 478; concrete pipe, 163; consumer standards, 634; coordinating committee for nuclear material standards formed, 527; corrosion of iron and steel, 56, 474; corrosion of metals, 612; corrosion of nonferrous metals and alloys, 612; deterioration of nonmetallic materials, 58, 531; electrical insulating liquids and gases, 474; electrical insulating materials, 636; electrodeposited metallic coatings and related finishes, 528; engine antifreezes, 55, 366; erosion by cavitaion and impingement, 474; fire tests of materials and construction, 56, 477; flexible barrier materials, 367; fracture testing of metals, 367, 478; gas chromatography, 535; gaskets, 58, 366; hazard potential, 353; hydrometers, 319; industrial water, 217, 474; inorganic and high modulus fibers, 55; joint committee on leather, 632; lime, 276; liquid-in-glass thermometers, 318; mass spectrometry, 413; materials for electron devices and microelectronics, 163, 528, 586; methods of testing, 478; methods of testing building constructions, 57, 473; natural building stones, 217; nondestructive testing, 479; paint, varnish, lacquer, and related products, 477; peats, mosses, humus, and related products, 121; petroleum products and lubricants, 586; plastics, 56, 479; resinography, 545; road and paving materials, 217, 473; skid resistance, 58, 473; soaps and other detergents, 532; soil and rock for engineering purposes, 57; space simulation, 531; statistical methods, 366; steel, 319, 527; surgical implant materials, 55, 318, 636; thermal insulating materials, 57, 318; wires for electrical conductors 417; wood, 637
ASTM technical committee officers, halogenated organic solvents, 163; methods of testing building constructions, 56; nondestructive testing, 58; soil and rock for engineering purposes, 57

B

Baker, R. A. (book review): Chemical treatment of sewage and industrial wastes, 373
Banerjee, B. R. (book review): An atlas of models of crystals surfaces, 373
Bates, A. Allan: A proposed system for innovation in building construction, 325
Berbower, R. F., receives Hogentogler award, 459
Berg, Robert M. (letter), 164
Beryllium, conference internationale sur la metallurgie du beryllium (book review) 645
Bituminous materials: asphalts, tars, and pitches (book review), 374
Blanck, A. R. (letter), 323
Bloem, D. L. (book review): Concrete technology and practice, 277
Body-centered cubic metals, diffusion in (book review of), 127
Bolotin, V. V.: The dynamic stability of elastic systems (book review of), 127
Boynton, R. S.: The chemistry and technology of lime and limestone (book review of), 419
Brisbane, A. W. (book review): A concise encyclopedia of metallurgy, 278
Brodrick, R. F., and Fritch, D. J., receive Templin award, 457
Brown, M. R., Jr., receives grant-in-aid, 482
Building codes, a proposed system for innovation in building construction, 325
Building officials conference of America, Inc.: BOCA basic building code (book review of), 643
Building terminology, glossary of (book review), 374

C

Cadle, R. D.: Particle size—theory and industrial applications (book review of), 640
Campus, F.: International organizations in the field of testing of materials, 444
Carlson, C. F.: Materials and the inventor, 424
Cement, symposium on structure of portland cement paste and concrete (book review of), 492
Central Mortgage and Housing Corp.: Glossary of building terminology (book review of), 374
Ceramics for advanced technologies (book review), 541
Chambers, Carl C.: The changing character of professional engineering, 304
Chemistry and technology of lime and limestone (book review), 419
Clark, J. B. (book review): High-strength materials, 277
Concise encyclopedia of metallurgy (book review of), 278
Concrete technology and practice (book review of), 277
Compatibility of plastics with liquid propellants, fuels, and oxidizers (book review of), 492
Computer dictionary and handbook (book review), 590
Construction, a proposed system for innovation in building construction, 325
Cook, J. M., and Rouse, J. T.: ASTM cotton yarn appearance standards, 29

Cornthwaite, A. B., receives award of merit, 461
Corrosion and protection of metals (book review), 419
Cotton, ASTM cotton yarn appearance standards, 29
Criscuolo, E. L. (book review): Physics of industrial radiology, 645
Crystal surfaces, an atlas of models of (book review), 373
Culver, R. S., receives grant-in-aid, 482

D

Davidson, W. R. (letter), 164
Davis, R. E., receives honorary membership, 454
Deming, W. E. (book review): Sampling, 492
Dictionary of technical terms for aerospace use (NASA SP-7) (book review), 375
Dietz, A. G. H. (book review): Fiber composite materials, 218
Dietz, A. G. H., and Eirich, F. R.: High speed testing, Vol. V (book review of), 644
Doelle, L. L.: Acoustics in architectural design (book review of), 276
Dolch, W. L., receives Dudley medal, 457
Dudley medal to W. G. Mullen and W. L. Dolch, 457
Duggan, T. V.: Stress analysis and vibrations of elastic bodies (book review of), 62
Dunn, E. J., Jr., receives award of merit, 461
Dynamic stability, of elastic systems (book review of), 127

E

Elastic systems, the dynamic stability of (book review of), 127
Elements of mechanics of materials (book review), 590
Elliott, J. F., and Meadowcroft, T. R.: Steelmaking: the Chipman conference (book review of), 166
Epstein, S., receives award of merit, 461
Erdle, P. J. (book review): The dynamic stability of elastic systems, 127
Esterling, V. J., receives grant-in-aid, 482
Etris, S. F. (book review): Ceramics for advanced technologies, 541; (book review): Dictionary of technical terms for aerospace use (NASA SP-7), 375; (book review): Modern ceramics, 541
Eyring, L.: Rare earth research, part III (book review of), 541

F

Fastener Standards (book review), 375
Fenner, A. J.: Mechanical testing of materials (book review of), 128
Fiber composite materials (book review of), 218
Fieldner, A. C. (obituary), 633
Fink, W. L., receives honorary membership, 454
Finkeldey, W. H., receives award of merit, 462
Forney, D. M. (book review): Strength, fracture, and fatigue of materials, 543
Fowler, E. D. (letter), 375
French Society of Metallurgy: International conference on the metallurgy of beryllium (book review of), 645
Fritch, D. J., receives Templin award, 457
Fuels, compatibility of plastics with liquid propellants, fuels, and oxidizers (book review of), 492
Fueter, Eduard, and Amstutz, Eduard: Materials testing and research activities in Switzerland and other countries (book review of), 166

G

Garvey, B. S., Jr., receives award of merit, 462
Gaven, F. M.: Simulated service tests—a dilemma, 427
Gilbert, L. C. (book review): ACI standards 1965, 541; (book review): Bituminous materials: asphalts, tars, and pitches, 643; (book review): BOCA basic building code, 643; (book review): Glossary of building terminology, 374; (book review): Theory of plasticity for ideal frictionless materials, 645
Gillett Lecture presented by B. W. Gonser, 210, 481
Gmelin-Durrer Institute: Metallurgy of iron (book review of), 643
Gohn, G. R. (book review): Mechanical testing of materials, 128
Goldbeck, A. T. (obituary), 585
Gonser, B. W.: Modern materials (book review of), 492
Gonser, B. W., receives honorary membership, 455
Graf, S. H. (obituary), 639
Graves, H. K., receives award of merit, 462

H

Haertlein, J. B. (book review): New types of metal powders, 127
Hague, J. L., receives Lundell-Bright award, 459
Halmshaw, R.: Physics of industrial radiology (book review of), 645
Hansen, B.: A theory of plasticity for ideal frictionless materials (book review of), 645
Harris, M., receives Dewitt Smith Medal, 528
Harris, R. A., receives award of merit, 462
Herman, H. (book review): Introduction to properties of materials, 218
Hess, R. E. (book review): Materials testing and research activities in Switzerland and other countries, 166; (editorial) for value received, 63
Hess, R. E., and Legget, R. F.: Pioneers in testing, 423
High-speed testing, Vol. V (book review), 644
High-strength materials (book review of), 277
Highway Research Board: Symposium on structure of portland cement paste and concrete (book review of), 492
Hogentogler award to C. F. Parent and R. F. Berbower, 459
Hoiberg, A. J.: Bituminous materials: asphalts, tars, and pitches (book review of) 374
Housel, W. S., receives award of merit, 463
Hove, J. E., and Riley, W. C.: Ceramics for advanced technologies (book review of), 541; Modern ceramics (book review of), 541
Huber, M. D. (book review); Official methods of analysis, 277

I

Industrial Fasteners Institute: Fastener standards (book review of), 375

J

Jackson, A.: Oxygen steelmaking for steelmakers (book review of), 375
Jacobi, L. J., receives award of merit 463
Jaffee, R. I.: Refractory metals and alloys III: applied aspects (book review of), 542
Johnson, C. A., receives award of merit, 463

K

Kline, G. M. (book review): Polymer technology, 374

L

Landgren, R., receives Thompson award, 458
Lapeyrouse, Maury (letter), 164
Legget, R. F.: Consensus, 93; (editorial) message from the president, 1; standards in transition (president's address), 451; *see also* Hess, R. E., and Legget, R. F.
Leonard, L., receives grant-in-aid, 483
Lempriere B. (book review): Inelastic behavior of load-carrying members, 374
Lewis, W. C., receives award of merit, 463
Lime, the chemistry and technology of lime and limestone (book review), 419
Lincoln, W. B., Jr., receives award of merit, 464
Lindahl, Robert (book review): Acoustics in architectural design, 276
Load-carrying members, inelastic behavior of (book review), 374
Loveland, R. P., receives award of merit, 464
Lownie, H. W., Jr., receives award of merit, 464
Lumber standards in transition, 194
Lumsden, G. Q. (letter), 165
Lundell-Bright award to J. L. Hague, 459

M

Mandel, John (book review): Basic statistical methods for engineers and scientists, 373
Marburg Lecture presented by D. C. Drucker, 210, 481
Materials, high-strength (book review of), 277
Materials, modern (book review of), 492
Materials testing, and research activities in Switzerland and other countries (book review of), 166
McBride, D. L. (book review): Oxygen steelmaking for steelmakers, 375
McCoy, P. E. (book review): Bituminous materials: asphalts, tars, and pitches, 374
McMaster, W. D., receives award of merit, 464
Mechanical testing, of materials (book review of), 128
Merriman, A. D.: A concise encyclopedia of metallurgy (book review of), 278
Metal powders, new types of (book review of), 127
Metal properties council originated, 406
Metallurgy, a concise encyclopedia of (book review of), 278
Metallurgy of iron (book review), 643
Metals, corrosion and protection of metals (book review), 419
Metric practice guide revised, 408
Mielenz, R. C., receives Richart award, 458
Miles, D. C., and Biston, J. H.: Polymer technology (book review of), 374
Modern ceramics (book review), 541
Modern materials (book review of), 492
Mullen, W. G., and Dolch, W. L., receive Dudley medal, 457

N

Nakhalov, G. T., and Turkovskaya, A. V.: Corrosion and protection of metals (book review of), 419
Nason, H. K., receives award to executives, 456
Nelson, Gaylord A.: The water pollution challenge, 281
Neville, A. M., and Kennedy, J. B.: Basic statistical methods for engineers and scientists (book review of), 373
New York World's Fair, 414
Nicholas, J. F.: An atlas of models of crystal surfaces (book review of), 373

O

Official methods of analysis (book review of), 277
Oil refiners question commerce department's role in voluntary commodity standards, 98
Olsen, G. A.: Elements of mechanics of materials (book review of), 590
Oxygen steelmaking for steelmakers (book review), 375

P

Parent, C. F., and Berbower, R. F., receive Hogentogler award, 459
Parsons, W. A.: Chemical treatment of sewage and industrial wastes (book review of), 373
Particle size—theory and industrial applications (book review), 640
Patterson, G. D. (book review): High speed testing, Vol. V, 644; (book review): Testing of polymers, 278
Physics of industrial radiology (book review), 645
Plastics, compatibility of plastics with liquid propellants, fuels, and oxidizers (book review of), 492; resinography in ASTM, 545
Plastics technical evaluation center: Compatibility of plastics with liquid propellants, fuels, and oxidizers (book review of), 492
Plastic theory, A theory of plasticity for ideal frictionless materials (book review), 645

Plummer, H. C., receives Voss award, 458
Polakowski, N. H., and Ripling, E. J.: Strength and structure of engineering materials (book review of), 542
Polymers, resinography in ASTM, 545
Polymers, Vol. 1, testing of (book review of), 278
Polymer technology (book review), 374
Price, W. H., receives award of merit, 465
Process simulation and control in iron and steelmaking (book review), 543
Professional engineering, the changing character of, 304
Propellants, compatibility of plastics with liquid propellants, fuels, and oxidizers (book review of), 492
Properties of materials, introduction to (book review of), 218

Q

Quality control, simulated service tests—a dilemma, 427

R

Rare earth research, part III (book review), 541
Rather, J. B., Jr.: ASTM's role in the field of water pollution, 580
Refractory metals and alloys III: applied aspects (book review), 542
Refractory semiconductor materials (book review), 542
Research activities, materials testing and, in Switzerland and other countries, (book review of), 166
Resinography in ASTM, 545
Rheology, free-space concept and rheology of asphalt cements, 617
Richart award to R. C. Mielenz, 458
Rochow, T. G.: Resinography in ASTM, 545
Rosenthal, D.: Introduction to properties of materials (book review of), 218
Rossi, C. E., receives ASTM doctoral fellowship, 484

S

Sample, C. H., receives award of merit, 465
Sampling (book review of), 492
Schmitz, J. V.: Testing of polymers (book review of), 278
Schneider, S. J. (book review): Rare earth research, part III, 541
Sewage and industrial wastes, chemical treatment of (book review), 373
Shmartsev, Yu. V., Valov, Yu. A., and Borshchevskii, A. S.: Refractory semiconductor materials (book review of), 542
Simulated service testing,
a dilemma, 427
meaning of, 583
Sippl, C. J.: Computer dictionary and handbook (book review of), 590
Slonim, J.: Sampling (book review of), 492
Smith, A. T.: Lumber standards in transition, 194
Smith, H. M.: Oil refiners question commerce department's role in voluntary commodity standards, 98
Smith, J. O., and Sidebottom, O. M.: Inelastic behavior of load-carrying members (book review of), 374
Starr, C. Dean, receives Tour award, 459
Statistical methods for engineers and scientists, basic (book review), 373
Steelmaking: the Chipman conference (book review of), 166
Stephens, R. I. (book review): Strength and structure of engineering materials, 542
Strength, fracture and fatigue of materials (book review), 543
Strength and structure of engineering materials (book review), 542
Stress analysis, vibration of elastic bodies (book review of), 62
Stulen, F. B. (obituary), 360
Surgical implant legislation, need for, 522
Swindells, J. F., receives award of merit, 465

T

Taylor, W. H.: Concrete technology and practice (book review of), 277
Templin Award to R. F. Brodrick and D. J. Fritch, 457
Terhune, H. R. (letter), 325
Testing of polymers, Vol. 1 (book review of), 278
Textiles, can life expectancy rates be set for textile products?, 343
Thompson award to R. Landgren, 458
Timmerhaus, K. D.: Advances in cryogenic engineering (book review of), 541
Tour award to C. Dean Starr, 459
Tour, Sam (obituary), 358

U

Uys, J. M., and Bishop, H. L.: Process simulation and control in iron and steelmaking (book review of), 543

V

Van Luik, F. W. (book review): Particle size—theory and industrial applications, 640
Vibration, stress analysis, of elastic bodies (book review of), 62
Voluntary commodity standards, oil refiners question commerce department's role in, 98
Voorhees, H. R. (book review): Stress analysis and vibrations of elastic bodies, 62
Voss award to H. C. Plummer, 458

W

Ward, R. G. (book review): Steelmaking: the Chipman conference, 166
Water pollution, challenge, 281
Water quality
ASTM holds first national meeting on water quality criteria, 576
ASTM's role in the field of water pollution, 580
Wegelius, E., receives honorary membership, 455
Wernimont, G. T., receives award of merit, 465
Whittier, W. A. (book review): The chemistry and technology of lime and limestone, 419
Wood, Lyman (dies), 157
Work, C. E.
(book review): Elements of mechanics of materials, 590
receives grant-in-aid, 483

X

Xerography, materials and the inventor, 424

Y

Yarns, ASTM cotton yarn appearance standards, 29
Yokobori, T.: Strength, fracture and fatigue of materials (book review of), 543

Combined Index to ASTM Technical Papers—1966

This is an index to all papers published by ASTM during 1966 in *MR&S*, in the *Journal of Materials*, and in Special Technical Publications. The following abbreviations are used.

MR&S —Materials Research & Standards
JOM —Journal of Materials
STP —Special Technical Publication

A

Absolute reaction rate theory, stress relaxation in metals plastically prestrained in compression (Wilson and Garofalo), *MR&S*, February, 85
Accelerated test, for deterioration of adhesive bonds in plywood (Northcott and Hancock), *STP 401*
Acceptance test, contractural reliability acceptance procedures (Coutinho), *STP 404*
Acetate, determination of acetate addition in cement by gas chromatography (Wexler), *STP 395*
Adams, C. J.: *see* Martin, B. G., and Adams, C. J.
Adhesion
  accelerated tests for deterioration of adhesive bonds in plywood (Northcott and Hancock), *STP 401*
  adhesion of asphalt to stone (Bikerman), *JOM*, March, 34
  can the service life of bonds be predicted? (Northcott, Colbeck, and Kozak), *STP 401*
  durability of adhesive-bonded aluminum joints exposed to outdoor weathering (Scott), *STP 401*
  durability of adhesive peel joints while stressed in water (Carter), *STP 401*
  durability of bonded housing components (Kell and Cooper), *STP 401*
  effects of south Florida weathering on structural adhesive joints (Hause, Pagel, and McKown), *STP 401*
  softwood plywood adhesive bonds for construction uses (Cone), *STP 401*
Adhesives
  accelerated tests for deterioration of adhesive bonds in plywood (Northcott and Hancock), *STP 401*
  can the service life of bonds be predicted? (Northcott, Colbeck, and Kozak), *STP 401*
  durability of adhesive-bonded aluminum joints exposed to outdoor weathering (Scott), *STP 401*
  durability of adhesive peel joints while stressed in water (Carter), *STP 401*
  durability of bonded housing components (Kell and Cooper), *STP 401*
  effects of south Florida weathering on structural adhesive joints (Hause, Pagel, and McKown), *STP 401*
  nondestructive test development for advanced airplanes (Johnson and Etheridge), *JOM*, December, 823
  softwood plywood adhesive bonds for construction uses (Cone), *STP 401*
Admixtures (concrete), significance of tests and properties of concrete and concrete-making materials, *STP 169-A*
Aggregates, significance of tests and properties of concrete and concrete-making materials, *STP 169-A*
Aging
  aging kinetics in 300-grade marage steel (Banerjee, Capenos, and Hauser), *STP 396*
  effect of aging of asphalt on its rheological properties (Moavenzadeh and Stander), *JOM*, March 48
Ailor, W. H.: ASTM establishes new corrosion group, *MR&S*, December, 612
Aircraft
  assessment of the flammability of aircraft fluids (MacDonald), *STP 406*
  development of a scatter factor applicable to aircraft fatigue life (Impellizzeri), *STP 404*
  evaluation of fatigue capabilities of high-performance military aircraft (Bouchard), *STP 404*
Air embrittlement, air contamination in titanium alloys Ti-679 and Ti-8-1-1 (Antony), *JOM*, June, 456
Air pollution, apparatus for studying the effects of atomspheric pollution and cyclic dew formation on the deterioration of materials (Pitts and Moore), *MR&S*, July, 328
Alcohols, use of various alcohols with the Chace air indicator (Chamberlin), *MR&S*, April, 180
Alignment, specimen alignment and strain measurement in axial creep tests (Penny, Ellison, and Webster), *MR&S*, February, 76
Alkali halides, low-temperature annealing processes in alkali halides (Royce), *STP 400*
Alkali metals
  the radiolytic decomposition of crystalline alkali metal and alkaline earth bromates (Chase and Boyd), *STP 400*
  the unfamiliar metals (Gonser), *JOM*, December, 911
Alkaline earth bromates, the radiolytic decomposition of crystalline alkali metal and alkaline earth bromates (Chase and Boyd), *STP 400*
Alkaline earth metals, the unfamiliar metals (Gonser), *JOM*, December, 911
Alumina, recent advances in alumina whisker technology (Levitt), *MR&S*, Feburary, 64
Aluminum alloys
  correlation of high-cycle fatigue strength with true stress-true strain behavior (Rowe), *JOM*, September, 689
  densities of wrought aluminum alloys (Kunkle and Willey), *JOM*, March, 226
  detection of lack-of-fusion in aluminum alloy weldments by ultrasonic shear waves (Martin and Adams), *MR&S*, September, 440
  detection of substructure differences in aluminum alloys by anodic electroluminescence (Eisner), *MR&S*, February, 72
  durability of adhesive-bonded aluminum joints exposed to outdoor weathering (Scott), *STP 401*
  durability of adhesive peel joints while stressed in water (Carter), *STP 401*
  effect of vacuum outgassing time on the fatigue behavior of two structural aluminum alloys, (Hoeppner and Hyler), *MR&S*, December, 59.
  effects of several coatings on fatigue strengths of some wrought aluminum alloys (Stickley and Lyst), *JOM*, March, 19
  fatigue tests of unmachined, mechanically machined, and chemically machined panels of aluminum and titanium alloys (Whaley), *STP 404*
  random-loading fatigue crack growth behavior of some aluminum and titanium alloys (Smith), *STP 404*
  roll fatigue tests of forged ZK60A-T5 magnesium and 2014-T6 aluminum wheels (Behr and Campbell), *STP 404*
  thermophysical properties of metals at

cryogenic temperatures (Powell), *STP 387*
